ABOUT THE FOUNDER

| JUSTIN DAMIAN FURNESS |

" So many people are waking up and discovering that something is missing from their life, awakening to the fact that they've been conditioned to be anything other than who they truly are, prepared and packaged to fit

predefined little boxes to fulfill the societal expectation, need or cultural inheritance of the time. "

For the past 12 years Justin has devoted himself to uncovering the the biggest challenges that stand in the way of experiencing true personalized fulfillment and how to remove the bricks from the walls of conditioning blocking the view and holding so many back from experiencing the life they truly want and deserve.

Mentoring with Doctors and Specialists, training in cutting edge modalities, techniques and strategies, never being satisfied with the norm, Justin is always searching for people on the fringe, thought leaders, visionaries and futurists who are pushing the boundaries of conventional authorities and who are always getting consistent, long lasting and often miraculous results, this has equipped me with the tools and knowledge to support you safely through your darkest hours and facilitate you to emerge fully empowered each step along your journey.
